Version: 4.1

Topic 1, Misc. Questions

Question: 1

You have a data loss prevention (DLP) policy that applies to the Devices location. The policy protects documents that contain States passport numbers.

Users reports that they cannot upload documents to a travel management website because of the policy.

You need to ensure that the users can upload the documents to the travel management website. The solution must prevent the protected content from being uploaded to other locations.

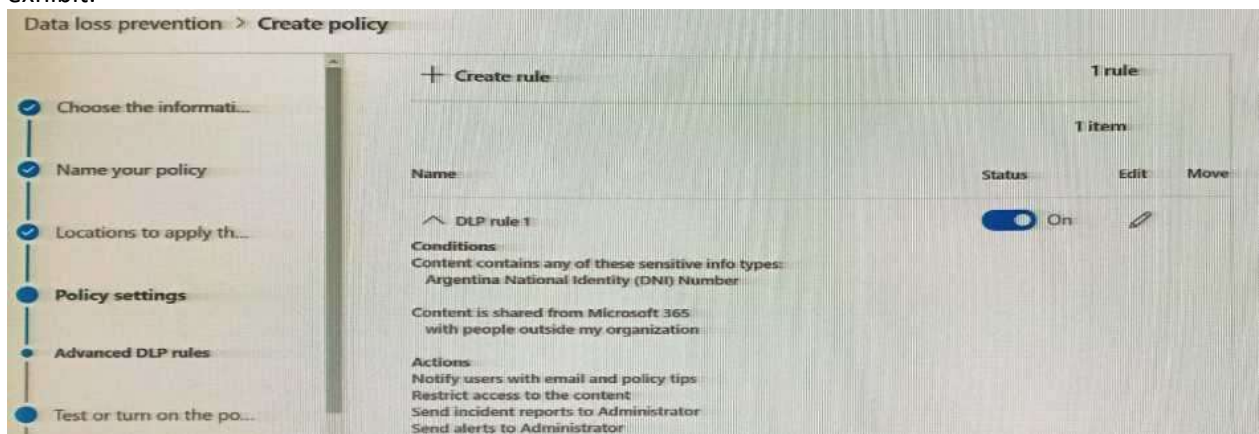

Which Microsoft 365 Endpoint data loss prevention (Endpoint DLP) setting should you configure?

- A. Unallowed apps
- B. File path exclusions
- C. Service domains
- D. Unallowed browsers

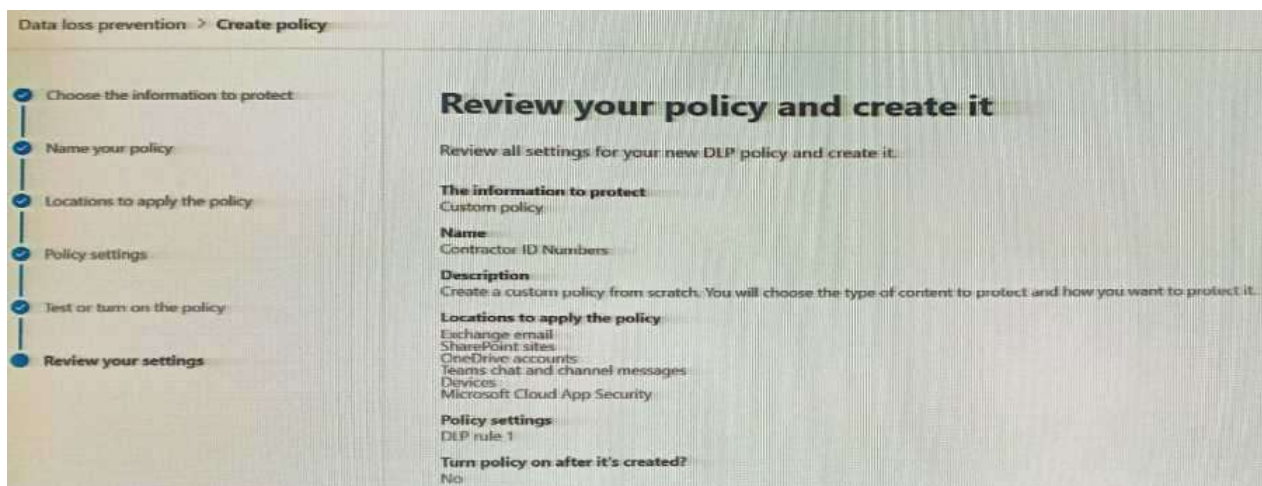

Answer: A

Question: 2

You create a data loss prevention (DLP) policy. The Advanced DLP rules page is shown in the Rules exhibit.

The Review your settings page is shown in the review exhibit.

You need to review the potential impact of enabling the policy without applying the actions. What should you do?

- A. Edit the policy, remove all the actions in DIP rule 1, and select I'd like to test it out first
- B. Edit the policy, remove the Restrict access to the content and Send incident report to Administrator actions, and then select Yes, turn it on right away.
- C. the policy. remove all the actions in DLP rule 1, and select Yes, turn it on right away.
- D. Edit the policy, and then select I'd like to test it out first.

Answer: C

Question: 3

You are planning a data loss prevention (DLP) solution that will apply to computers that run Windows 10.

You need to ensure that when users attempt to copy a file that contains sensitive information to a USB storage device, the following requirements are met:

* If the users are members of a group named Group1, the users must be allowed to copy the file, and an event must be recorded in the audit log.

* All other users must be blocked from copying the file.

What should you create?

- A. one DLP policy that contains one DLP rule
- B. two DLP policies that each contains on DLP rule
- C. one DLP policy that contains two DLP rules

Answer: B

Question: 4

HOTSPOT

You have a data loss prevention (DLP) policy that has the advanced DLP rules shown in the following table.

You need to identify which rules will apply when content matches multiple advanced DLP rules. Which rules should you identify? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point.

Name	Priority	Actions
Rule1	0	<ul style="list-style-type: none"> Notify users with email and policy tips User overrides: Off
Rule2	1	<ul style="list-style-type: none"> Notify users with email and policy tips Restrict access to the content User overrides: Off
Rule3	2	<ul style="list-style-type: none"> Notify users with email and policy tips Restrict access to the content User overrides: On
Rule4	3	<ul style="list-style-type: none"> Notify users with email and policy tips Restrict access to the content User overrides: Off

Answer Area

If content matches Rule1, Rule2, and Rule3:

- Only Rule1 takes effect
- Only Rule2 takes effect
- Only Rule3 takes effect
- Rule1, Rule2, and Rule3 take effect

If content matches Rule2, Rule3, and Rule4:

- Only Rule2 takes effect
- Only Rule3 takes effect
- Only Rule4 takes effect
- Only Rule2 and Rule4 take effect
- Rule2, Rule3, and Rule4 take effect

Answer:

Answer Area

If content matches Rule1, Rule2, and Rule3:

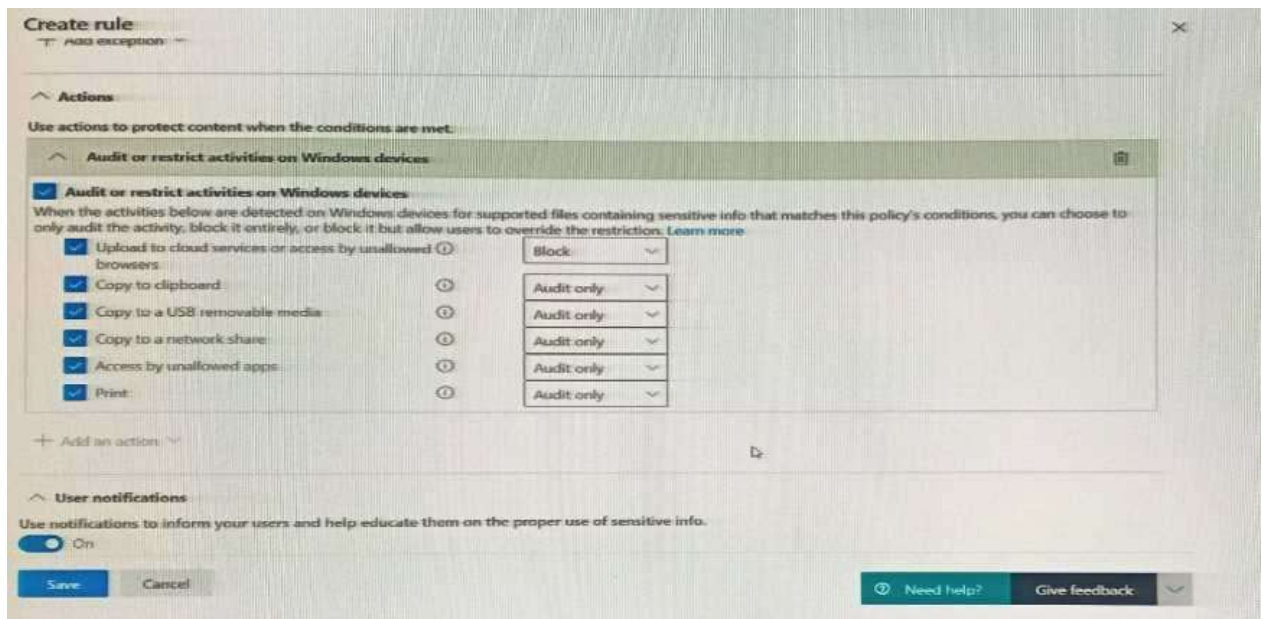

- Only Rule1 takes effect
- Only Rule2 takes effect
- Only Rule3 takes effect
- Rule1, Rule2, and Rule3 take effect

If content matches Rule2, Rule3, and Rule4:

- Only Rule2 takes effect
- Only Rule3 takes effect
- Only Rule4 takes effect
- Only Rule2 and Rule4 take effect
- Rule2, Rule3, and Rule4 take effect

Question: 5

You have a data loss prevention (DLP) policy configured for endpoints as shown in the following exhibit.

From a computer named Computer1, 3 user can sometimes upload files to cloud services and sometimes cannot. Other users experience the same issue. What are two possible causes of the issue? Each correct answer presents a complete solution. NOTE: Each correct selection is worth one point.

- A. The Access by unallowed apps action is set to Audit only.
- B. The computers are NOT onboarded to the Microsoft 365 compliance center.
- C. The Copy to clipboard action is set to Audit only.
- D. There are file path exclusions in the Microsoft 365 Endpoint data loss prevention (Endpoint DIP) settings.
- E. The unallowed browsers in the Microsoft 365 Endpoint data loss prevention (Endpoint DLP) settings are NOT configured.

Answer: AD
